Public Consultation on Proposed Changes to Simplify and Streamline Intellectual Property Processes and Improve User Experience with Digital Initiatives
(Circular No. 3/2020, dated 17 August 2020)

IPOS is seeking feedback on proposed changes to simplify and streamline intellectual property (“IP”) processes and improve user experience with digital initiatives.

Why is IPOS doing this?

As part of IPOS’ continuous effort to ensure a top-class IP regime in Singapore, IPOS has identified areas where changes can be considered for processes relating to the obtaining, maintaining and recording Patents, Registered Designs, Trade Marks, Geographical Indications and Plant Varieties Protection rights and transactions in Singapore. In proposing changes to the identified areas, IPOS also takes into account the need to maintain a fair balance between the interests of IP rights owners and third parties.
