

# MUSIC ONLINE AND ON YOUR MOBILE

There are hundreds of online stores where you can get music onto your computer, portable player or mobile safely and legally.

Go to [www.pro-music.org](http://www.pro-music.org) for all you need to know about music online including links to sites where you can download music legally.

Property Office of Singapore

- Only download files that you have legally obtained and be careful when using Bluetooth to share copyright material as you still may be breaking the law.
- Subscribe to a music service, but make sure you get permission from the bill payer before you do so.
- Watch out when you're buying ringtones. **Always** read the small print of the ad before texting or phoning for a ringtone and make sure you aren't about to subscribe for regular texts without realising it.
