

**Issuance of Certificate of Registration under IP<sup>2</sup>SG system for Trade Mark**  
(Circular No. 1/2015, dated 8 January 2015)

With the launch of the IP<sup>2</sup>SG system for Trade Marks on 24 November 2014, the Registry has begun issuing softcopies of certificates of registration via the IP<sup>2</sup>SG Customer Portal for applicants and appointed agents who have signed up for customer accounts under the IP<sup>2</sup>SG Customer Portal.

Applicants and appointed agents can print the certificate of registration immediately upon registration of the trade mark, minimising delay and potential loss of certificates of registration through the post or in transit. If required, a certified copy of the certificate of registration may be requested for in writing with a payment of a fee of S\$12.

Please also note that with effect from 5 January 2015, hardcopies of certificates of registration and certified copies of entry in the Register would be issued on white paper rather than on yellow paper, which was our previous practice.
